T-Shirt Quilt Preparation Checklist

Please complete these steps before placing your order.

- ☐ Make sure all of your t-shirts have been washed and dried at least once.
- ☐ Do NOT pre-cut any of your t-shirts.
- ☐ Using blue painter's tape*: *Do NOT use regular masking tape. It will leave a residue on your shirts!
 - Place an "X" over any logos you do NOT want included in your quilt.
 - If you have 2-3 shirts you would like us to center within the body of your quilt, write "CENTER" on a piece of tap and place over the design/shirt
 - If you have any other special instructions for a logo or picture, write those on tape and place on the shirt
- ☐ If you think you have more shirts than needed to make your quilt, place those in a separate bag and mark "EXTRA" on the bag. We'll use them only if additional shirts are needed in your quilt.
- ☐ Include the completed order form with your t-shirt quilt order.
